EXPERIENCE

Founder & Product Design Engineer @ Nara Labs

Jan 2026 - Present

Built and shipped AI-native applications spanning product management, commercial intelligence, education, and finance using agentic workflows, retrieval, memory, and multimodal interfaces.

LocalPM OS - Local AI Product Manager

- Built an always-on AI product management agent that synthesizes customer feedback, roadmap context, and documentation into autonomous prioritization, PRD generation, and stakeholder summaries.

ReadyLead - Agentic Growth Intelligence Platform

- 🏆 2nd Place, YC AI Growth Hackathon - built ReadyLead, an agentic growth intelligence platform that transforms fragmented buying signals into prioritized commercial opportunities using retrieval and agentic reasoning.

AI Product Designer @ FedEx Dataworks

Jun. 2025 - Present | Remote

- Designed AI Concierge onboarding, multi-agent experiences, and orchestration workflows, creating the foundation adopted by the Sierra AI team at FedEx.
- Led the evolution of an AI-ready enterprise design system supporting 12 product teams and 200+ designers, reducing design-to-code handoff time by 35%.
- Built a machine-readable design system with reusable components and semantic metadata, enabling AI-assisted implementation and faster engineering delivery.

Sr. Product Designer @ J.P. Morgan Chase

Jun. 2022 - Oct. 2024 | Palo Alto, CA; New York, NY

- Led product design for startup banking experiences serving 2,000+ founders and businesses.
- Built scalable enterprise design systems and reusable component libraries adopted across 8 banking products by 100+ designers and engineers.
